HELPING THE LESS FORTUNATE THROUGH  
ACTS OF KINDNESS AND CHARITY

## Charity projects

### BCM Pound Projects update

Jzk for the £1 donation for this month. This month we did a project that will continue to provide us with deeds for a long time and even after death. This month we provided a 12 year old boy, who lives in Birmingham, with a copy of a digital audio Qur'an. The young boy was born with a condition called Leber congenital amaurosis. This is a rare inherited eye disease that appears at birth or in the first few months of life. Through infancy there is a loss of vision which is irreversible. The young boy that we provided the digital audio Qur'an for has no central vision (which is needed to read or to see what's in front of us) and has extremeley poor peripheral vision. We cannot read or look directly at anything using our peropheral vision. As a result he is registered blind. From a young age he has enjoyed praying and listening to the Qur'an as it stimulates his senses.

He is plannign to do hifz and learn the entire Qur'an by heart. He has already made a start and memorised two juz. It gave us great pleasure to give this young boy a copy of the Qur'an, which he can listen to whenever he wants to. The digital pen that is used to can translate the Qur'an in many languages and a voice of his choice. He can read sentences (ayat) by touching the start of the ayat or revise what he has already learnt by listening to the whole chapter by touching the title of the chapter. Whoever is assisting him with the pen also listens to the Qur'an and can correct their own pronunciation. Every time anyone reads the Qur'an or when he revises any ayat that he has learnt; we all gain good deeds.

We all wish him the best for his health and in his efforts to memorise the Qur'an.
